ANSWERS TO QUESTIONS OFTENS ASKED ABOUT OUR FEES AND PROCEDURES

To the New Patient:
a thorough understanding of our fees and procedures is necessary in order to maintain a good doctor/patient relationship, a factor which is very important in gaining maximum recovery. Therefore, we want you to feel free to discuss our recommendations or fees with us at any time.

Consultation:
During the consultation, the doctor will take your case history and make a preliminary examination to determine whether you should be referred elsewhere or are a chiropractic case, and if so, what further tests, examinations and x-rays are indicated. At each office visit, a brief inspection of the condition(s) will be done.

Examination:
Some conditions, such as minor strains, require only an examination and may or may not need x-rays to determine the factors causing them. The doctor will discuss this with you if you have any questions. Other conditions, more deep-seated in origin, may require more extensive examination and x-ray to disclose the various factors that may influence or contribute to the underlying cause of the condition.

Your Case Report:
When the necessary examinations are completed, the doctor will correlate and evaluate the findings. He will fully explain the diagnosis, treatment recommendations and the expected duration of treatment. Before starting treatments, he will also answer any questions you may have to help you fully understand your problem. Please inform the doctor of any new conditions or changes in your present condition that may occur for the purpose of re-evaluation.

NEW PATIENT PROCEDURES

The following information is given so you will feel comfortable and relaxed during your time here. After the initial intake forms are processed, you will be taken to the doctor's consultation room. The doctor will then visit with you and take a history of your condition. You will then be examined to determine as near as possible the extent of your problem. If the examination indicates that x-rays are necessary, you will be taken with a CA to the x-ray room for those services.

When treatment begins, it will be a gentle hands-on manipulative approach by the doctor who will try to explain the gentle moves you feel or sounds you hear. He is very willing to answer your questions about any phase of the care here or any of your health needs.

"I consent to the physical examination, x-ray studies if needed, laboratory procedures if needed, chiropractic or adjunctive therapy or other clinic service that is ordered under the general and/or specific instructions of the doctor."

Patient Health Information Consent Form

We want you to know how your Patient Health Information (PHI) is going to be used at Coon Rapids Chiropractic Office and your rights concerning those records. Before we will begin any health care operations we must require you to read and sign this consent form stating that you understand and agree with how your records will be used. If you would like to have a more detailed account of our policies and procedures concerning the privacy of you PHI we encourage you to read the HIPAA Notice that is available to you at the front desk before signing this consent.

1) The patient understands and agrees to allow this chiropractic office to use their PHI for the purpose of treatment, payment, healthcare operations, and coordination of care. As an example, the patient agrees to allow this chiropractic office to submit requested PHI to the Health Insurance company(s) provided to us by the patient for the purpose of payment.

2) The patient has the right to examine and obtain a copy of his or her own health records at any time and request corrections. The patient may request to know what disclosures have been made and submit in writing any further restrictions on the use of their PHI. Our office is not obligated to agree with those restrictions.

3) A patient's written consent needs only to be obtained one time for all subsequent care given to the patient in this office.

4) The patient may provide a written request to revoke consent at any time during care. This would not affect the use of those records for the care given prior to the written request to revoke consent but would apply to any care given after the request has been presented.

5) For your security and right to privacy, all staff has been trained in the area of patient record privacy and a privacy official has been designated to enforce those procedures in our office. We have taken all precautions that are know by this office to assure that your records are not readily available to those who do not need them.

6) Patients have the right to file a formal complaint with our privacy official about any possible violations of these policies and procedures.

7) If the patient refuses to sign this consent for the purpose of treatment, payment and health care options, the chiropractic physician has the right to refuse to give care.

I have read and understand how my Patient Health Information will be used and I agree to these policies and procedures.
